## Area or Dimensional Variances

Area variances may be granted where setback, frontage, lot size or yard requirements of this Code cannot be reasonably met. In making it's determination the ZBA shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determinations the board shall also consider the following criteria:

Please give a written response to each section.

(1) Will an undesirable change be produced to the character of the neighborhood or a detriment to nearby properties be created by the granting of the area variance?

*ATTACHED*

(2) Can the benefit sought by the applicant be achieved by some method, feasible to the applicant to pursue, other than an area variance?

(3) Is the requested area variance substantial?

(4) Will the proposed variance have an adverse effect or impact on the physical or environmental conditions in the neighborhood?

(5) Has the alleged difficulty been self-created?  
This information shall be relevant to the decision of the board but shall not necessarily preclude granting of the variance.

AREA VARIANCE ZBA CITY OF PLATTSBURGH

1. NUMBER OF PRINCIPAL BUILDINGS ON THE LOT
2. NUMBER OF ACCESSORY STRUCTURES ON THE LOT
3. NUMBER OF APARTMENT DWELLING UNITS ON THE LOT

Written responses:

1. Will an undesirable change to the character of neighborhood or be a detriment to nearby properties?

The parcel is adjacent to Glens Falls National Bank and future PUD develop lots (lot 42, 221.16-1-17.42 and lot 43, 221.16-1-17-13) of same type of area uses with multiple dwellings, multiple accessory structures and multiple principal buildings as per the 5 acre rule for PUD. Lake Country Village is within 500 feet and is a housing association of over 300 homes, accessory structures and dwelling units.

2. Can the benefit sought by the applicant be achieved by some other method?

The lot is what is left over from PARC multiple subdivisions and property sales over the last 15 years. The lot is not big enough to meet PUD required 5 acres because some property was divided off from this lot for Glens Falls National Bank building and to increase lot 42 and lot 43 to the 5 acre size. The only property left is adjacent to the west and that is zoned Commercial. As per city Code 270 Schedule 2 this property is zoned RC-2 but is required to be developed under R-2 zone rules and bulk control schedule. Because of the unique circumstances of this left over property a lot that is not quite big enough and too big to be successfully used under the restrictive R-2 codes set for much smaller lots. The only other solution would be to re-subdivide this lot into 3 lots: and then the 3.77 acre area would look pretty much the same except with 3 individual curb cuts to US Ave for a greater number of dwelling units (72 apartments vs 36 apartments). Under current Zoning rules for this lot only one building can be on the property and a maximum of 24 dwelling units.

3. Is the area variance substantial?

The area variances made in this application to ZBA are not substantial when ZBA considers how this lot became the odd size of 3.77 acres and the adjacent two RC-2 lots sold in 2015.

4. Will the proposed area variances have an adverse effect or impact on the physical or environmental conditions of neighborhood?

The variances would allow for a well planned development that will be a continuation of the area development and land use.

5. Has the alleged difficulty been self-created?

The difficulty has been created by PARC and the City of Plattsburgh Planning Board. Over the last 15 plus years both agencies have in the process of converting what was once Federal land into property sold to the public. In this process a lot of changes have been made to accommodate buyers and their needs in lot sizes and zoning of parcels being sold. We are at the very end of all the Federal land once occupied as Plattsburgh Air Force Base being sold to the public.

## Area or Dimensional Variances

Area variances may be granted where setback, frontage, lot size or yard requirements of this Code cannot be reasonably met. In making its determination the ZBA shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determinations the board shall also consider the following criteria:

Please give a written response to each section.

(1) Will an undesirable change be produced to the character of the neighborhood or a detriment to nearby properties be created by the granting of the area variance?

NO, there will be no undesirable change. This side (Lynde Street) already has the hedge which will be taken out & replaced with the fence - shouldn't create any problems.

(2) Can the benefit sought by the applicant be achieved by some method, feasible to the applicant to pursue, other than an area variance?

NO - have to take out hedge & this opens up the backyard.

(3) Is the requested area variance substantial? YES, due to having to take out the hedge - which allows for privacy, since the whole backyard would be open to the street - need a 6' fence to replace hedge.

(4) Will the proposed variance have an adverse effect or impact on the physical or environmental conditions in the neighborhood?

NO will not have an adverse effect - NO different than hedge - except won't go over sidewalk.

(5) Has the alleged difficulty been self-created?

This information shall be relevant to the decision of the board but shall not necessarily preclude granting of the variance.

NO, when we bought the house - hedges were already here and were grown. An older couple owned the place prior. We have not the hedges back twice a year, but couldn't go back any further.

RE: Lewis Heights LLC  
Proposed Multi Family Development

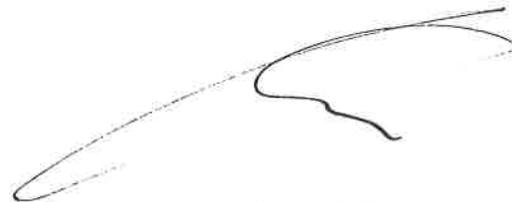

Dear Members of the Zoning Board:

In April of 2013, Lewis Heights, LLC came before the Zoning Board for consideration of a Special Use Permit in order to create a Planned Unit Development on Tax Parcel 221.16-1-17.13, located off New York Road. Lewis Heights was successful in obtaining conditional approval from the Planning Board for this project. Obtaining the property from PARC took longer than expected, with construction now scheduled for the spring of 2017.

At this point Lewis Heights requests an extension of the original Special Use Permit authorization. To further assist you in your review of this application, we have attached a copy of the site plan along with a Special Use Application. We would ask that the project be placed on the agenda for the next regular meeting of the Zoning Board of Appeals for consideration.

We thank you for your time in the review of this matter. If you have any further questions, please feel free to contact our office.

Sincerely yours,

Aaron J. Ovios, P.E.

**Appendix A**  
**State Environmental Quality Review**  
**FULL ENVIRONMENTAL ASSESSMENT FORM**

**Purpose:** The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or unmeasurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

**Full EAF Components:** The full EAF is comprised of three parts:

- Part 1:** Provides objective data and information about a given project and its site. By identifying basic project data, it assists a reviewer in the analysis that takes place in Parts 2 and 3.
- Part 2:** Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also identifies whether an impact can be mitigated or reduced.
- Part 3:** If any impact in Part 2 is identified as potentially-large, then Part 3 is used to evaluate whether or not the impact is actually important.

**DETERMINATION OF SIGNIFICANCE -- Type 1 and Unlisted Actions**

Identify the Portions of EAF completed for this project:       Part 1                       Part 2                       Part 3  
Upon review of the information recorded on this EAF (Parts 1 and 2 and 3 if appropriate), and any other supporting information, and considering both the magnitude and importance of each impact, it is reasonably determined by the lead agency that:

- A. The project will not result in any large and important impact(s) and, therefore, is one which **will not** have a significant impact on the environment, therefore a **negative declaration will be prepared.**
- B. Although the project could have a significant effect on the environment, there will not be a significant effect for this Unlisted Action because the mitigation measures described in PART 3 have been required, therefore a **CONDITIONED negative declaration will be prepared.\***
- C. The project may result in one or more large and important impacts that may have a significant impact on the environment, therefore a **positive declaration will be prepared.**

\*A Conditioned Negative Declaration is only valid for Unlisted Actions

Answers to these questions will be considered as part of the application for approval and may be subject to further verification and public review. Provide any additional information you believe will be needed to complete Parts 2 and 3.

It is expected that completion of the full EAF will be dependent on information currently available and will not involve new studies, research or investigation. If information requiring such additional work is unavailable, so indicate and specify each instance.

RE: Margaret Street Properties LLC  
Convert Office Space Back to Residential Use

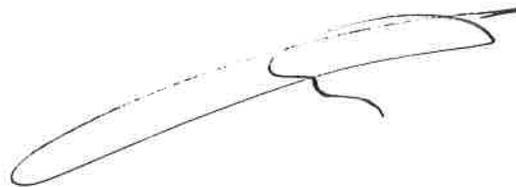

Dear Members of the Zoning Board:

Margaret Street Properties, LLC located at 52 Cornelia Street on Tax Parcel 207.15-5-20.1 is currently operating as office space after converting what was a residential use building. The applicant would now like to convert the space back to residential use by creating two one-bedroom apartments on the first floor. The city ordinance requires that any residential use in a business district obtain a Special Use Permit. The existing 2128 sq. ft. office space would require nine parking spaces per the city ordinance. With the proposed action, only four parking spaces would be required, thus improving the parking situation at this location.

To further assist in your review of this application, we have attached a drawing of the existing site and a copy of the Special Use Application. We would ask that the project be placed on the agenda for the next regular meeting of the Zoning Board of Appeals for consideration.

We thank you for your time in the review of this matter. If you have any further questions, please feel free to contact our office.

Sincerely yours,

Aaron J. Ovios, P.E.

**Decision Regarding Referral 89-16, Applicant Margaret Street Properties LLC, Special Permit to Convert Office Space to Residential Use, 52 Cornelia Street.**

The Clinton County Planning Board, at its November 2, 2016 meeting, voted 6-0 to consider this request a local issue, but to provide the following comments to the City:

The conversion of commercial space to residential within the downtown commercial district area may have an overall negative impact on commercial revitalization of the downtown. The City and applicant may want to explore potential other uses of the space besides residential apartments, which would continue to provide either office space or commercial retail space in the first floor.
